This is just one of those projects that we suddenly and abruptly decided to work on. We enjoyed the Sora no Otoshimono manga and we loped to work on it, but I suppose the group working on it will curse us if we suddenly decided to proceed and actually make a release of that title. This is the official 4 panel version of the 'Sora Oto' manga which is also created by Minazuki Suu we hope you guys enjoyed reading this and hopefully we'll get to see more of the chibified Angelwids from Sora no Otoshimono. The dialogues are pretty much about mundane stuff, they usually imply what they are saying rather than describing the whole picture. One of the difficult parts are Ikaros' dialogues. She says stuff straight to the point with very few words, this works well in Japanese, but it sounds very incomplete in English. Sometimes just trying to get the gist of what she is talking about can be confusing, but I'm glad it's done. I hope you guys enjoyed this chapter!
